

John Byun

Dear Hiring Manager,

I am excited to express my interest in joining your team. I hold a Diploma in Web and UX Design from Yoobee College of Creative Innovation, complemented by certifications from Google and Johns Hopkins University. These experiences have provided me with a strong foundation in design principles and front-end development technologies.

Through both academic training and personal projects, I have become proficient in tools such as Figma, Adobe Creative Suite, HTML, CSS, JavaScript, and React. I also have some experience in 3D graphics and motion design, which has supported my overall creative development.

Recently, I have been actively exploring how to incorporate emerging AI tools including Chat GPT, Figma AI, and Cursor AI into my design and development workflow. By leveraging these technologies, I am able to improve the accuracy, speed, and efficiency of my work, and accelerate idea generation and code creation across projects.

Thank you for considering my application. I would welcome the opportunity to learn more about your team and discuss how my skills, curiosity, and commitment to continuous learning can contribute to your success.

Yours sincerely,
John Byun
